TANAH LUNA is the DJ and artist project of Dutch–Moluccan musician Debora (Debbie) Hulskamp, also known as producer Debster. With roots in the Netherlands, the Moluccas, and Indonesia, her sound bridges cultures and rhythms, creating a unique blend of Afro Deep House with Balinese and Moluccan-inspired elements.

Her journey began behind the decks with Afro House mixtapes on SoundCloud, exploring deep grooves and hypnotic rhythms that would later connect seamlessly with her own productions. The result is a signature style where organic percussion, flowing melodies, and driving basslines come together to move both body and spirit.

Under the name Debster, she has built experience as a producer, topliner, co-writer, composer, singer and songwriter — now re-emerging as TANAH LUNA to focus on her own artistic vision.

Her debut single “MOON TEMPLE” will be released on 14 November 2025, marking the official start of this new chapter. With upcoming releases and performances planned in Amsterdam, Ibiza, and beyond, TANAH LUNA is ready to share her sound with a global audience.
